

AGREEMENT TO SUPPLY ELEVATION CERTIFICATE

This agreement becomes part of permit # _____
issued by Calvert County.

Date of Agreement: _____

Name of Property Owner: _____

Location: _____

Description of Proposed Building: _____

This part to be completed by the Local Permitting Official:

The above construction has determined to be in the 100-year floodplain regulated by the Floodplain Ordinance of Calvert County. The Flood Protection Elevation at this site has been determined to be _____ feet NGVD. The Ordinance requires that the lowest floor shall be elevated to one foot above the level of the 100-year flood (base flood) as delineated by the Flood Insurance Rate Maps issued by the Federal Emergency Management Agency, and other appropriate procedures outlined in the Ordinance, and that an Elevation Certificate be completed and signed by a registered professional engineer or surveyor and a copy returned to this office. This Certificate must be completed after floor supporting members are in place, and must show an elevation of at least as high as the elevation provided. This should be done as soon as possible, since all construction done prior to completion of Certificate is at applicant's risk and must be brought into conformance with the Ordinance.

Applicant's Agreement:

I agree to have Elevation Certificate completed and signed by a registered professional engineer or surveyor and return it to this office as soon as possible. I also agree to correct any deficiencies to assure that the lowest floor is at least as high as the elevation provided above. All elevations shall be mean sea level, Nations Geodetic Vertical Datum.

Date: _____ Signed: _____

NOTE: This form should be used for all new construction and substantial improvements in tidal, non-tidal and coastal high hazard floodplains only.
